## ABOUT THE WORKSHOP

This course will provide an overview of key critical care competencies that make up the national certification examination in critical care nursing (CNCC-C). This course is of benefit to nurses or paramedics working in critical care who are seeking a review of core competencies, or who are preparing to become certified (or recertified) in critical care nursing.

This course is a review; participants should have some previous critical care experience (with mechanical ventilation, hemodynamic monitoring and ECG interpretation).

## CONTINUOUS LEARNING HOURS

Participants will receive 36 hours of Continuous Learning Hours that can be used by certified nurses toward recertification of CNCC(C).

## HANDOUTS

A link to the course handouts will be provided by email within two weeks of the start of the course.

## PROGRAM INSTRUCTOR

Brenda Morgan has been a critical care nurse for more than 38 years, with > 35 years of teaching experience. She currently works as a Clinical Nurse Specialist in Critical Care at Victoria Hospital in London. Brenda has spoken on a variety of critical care topics: locally, nationally and internationally.

Brenda is a former President of the Canadian Association of Critical Care Nurses (1992 – 1994) and member of the national Board of Directors (1990-1995; 1998-2002). She has chaired or participated in 5 of CACCN's national conventions (Dynamics: 1991, 1994, 1999, 2002 and 2011), was a member of the Canadian Nurses Association

Certification committee for Critical Care Nursing between 1993 – 2009 and is the author of the certification study guide that is available to CACCN members.
